# Electric or hybrid motor-vehicle with cooling system for cooling removable battery modules

Electric vehicles

CAR COMP.

Conduction

Removable modules

Battery Management System

Cooling

Electric car battery

# Innovations/advantages

Electric vehicle with modular removable auxiliary battery with integrated cooling; Reducing weight and vehicle costs; High efficiency cooling system; Numerous embodiments.

# Application field

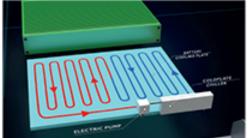

OEMs; Public Transport.

# **Product insight**

System for the effective cooling of removable battery modules while ensuring the necessary watertight seal.

The system allows increases in vehicle weight and costs to be minimized, and ensures high cooling efficiency with a widely varying number of battery modules.

### **Patent Information**

Priority Date – 25 October 2018
Application Number
PCT/IB2019/058166
Publication Number
WO 2020/084363 A1
IPR Dossier n. A09
